

President's Message

Message from Jeerreddi Prasad, MD, FACP, FACE

The SVMC Alumni Building is a campus destination, a welcome gate for the entire SVMC family and its guests, a gathering place for Alumni and a place for meeting old friends. It was a dream cherished by all proud Alumni of SVMC to have a place to gather where we can reminisce. It's a place you can call home when you visit Tirumala for pilgrimage.

The three-story building will serve as a resource for SVMC graduates and Alumni. We will have spacious, well furnished, air-conditioned, executive rooms and suites on the first floor. We will have a very beautiful Cafeteria with 40 seating capacity on the ground floor where breakfast, lunch, dinner and snacks will be served every day. A knowledge room with internet capability will be available on the ground floor. A 200 capacity ultra-modern acoustic air-conditioned auditorium will be constructed on the 2nd floor where we can have get-together of batches, reunions and other cultural events.

We request all our proud, successful and pioneering Alumni around the world to come forward with their generous contributions. Thank you in advance for giving your might towards this prestigious project of our mother medical school - "Golden Jubilee Knowledge Home."
